1953 SUPPLEMENT

to the Catalogue of

CARL STARKER GARDENS

Jennings Lodge
Oreg.
6

Greetings to our Gardening Friends:

We send you this our supplement to our 1952-53 list.

Please read it very carefully. You will find many new items of interest as well as a list of plants now out of stock. Please consult this list to avoid disappointment when ordering.

Our collection of Hardy English Ferns has grown amazingly this past season due to our local propagation and further imports. We wish you might visit us in mid summer to enjoy their cool, quiet, restfulness and their endless variation in form and texture. We are preparing a separate descriptive list of the English Ferns which will be sent **on request** to those interested. This is a rather lengthy list and will be sent **only on request**.

Our collection of plants now include more of the taller growing perennial plants, many of which we have in too small quantity to list. Write us about your wants, perhaps we can supply.

Please read the **Terms of Sale** on page 1 in our Catalogue.
